
Are you a parent of a newcomer youth and have something to say about mental health?

WHO?

If you live in Guelph-Wellington, have come to Canada in the last five years, and have a child between the age of 16-25, you are eligible to participate in a 90 minute online discussion with a group of 6-8 parents.

WHY?

We want to hear what is working well and not working well with mental health services and supports for newcomer youth and find ways to improve services in Guelph-Wellington.

After participating in the focus group, you will receive a \$20 gift card. Your participation will help inform mental health services in Guelph-Wellington. What you say will be kept confidential.

WHEN?

October 15, 7:00-8:30 pm REGISTER
